

Inspiring Patriotism in America!

Peter Smith works with Appleton, WI Flag Day organizers in June.

What is Peter's plan? He has created a DVD called *The Spirit of America*, a one-of-a-kind video tribute, celebrating the classic music of America synchronized to amazing video footage of our people, cities, business and landscapes. Smith was surprised to see that a tribute of this nature truly did not exist before he created it. He has also launched The Patriotic websites:

AmericaTheBeautiful.com, AmericaMinute.com AmericanDiaries.com, and SpiritofAmericaFoundation.org - focused on inspiring patriotism in America and putting patriotism back into America's Schools. Each of these sites, according to Smith, "are still in their infancy" but are drawing greater national attention every day.

25 years after his last performance as Uncle Sam at a Florida tourist and entertainment attraction, Peter Smith is strapping his stilts back on to spread good news to America. What is the good news? America truly is the best place in the world to live, work and follow your dreams.

During these times of global military, political and economic unrest - Peter Smith has seen a need to help remind Americans how wonderful our country truly is. After twenty years in the convention industry, Peter was able to see the desire of people to applaud this great country we live in. Peter is focused on keeping the "Spirit of America Alive" and is doing so by traveling the USA with a film crew to document stories of Patriotism, Passion, Promise and Pride in these United States. He also makes appearances as "Super Sam" and has brought it all to the worldwide web with the launching of AmericaTheBeautiful.com

...inspiring the patriotic hearts of all Americans.

As a 20 year entrepreneur, Peter has been known to dive into some pretty big projects. Today, he is reaching out to all of America and the world....

"Now that's an undertaking!"

Since the acts of 9-11 united everyone, Smith feels that America has again become complacent and forgotten the values and principles this nation was founded on. "So many people seem to have a problem with how our country is being run but no one is really doing anything about it. I believe we too often forget what it took to get where we are today and what we need to do as a nation to make our country even better, every day - just as our forefathers did".

"Patriotism isn't just for Holidays!"

From his headquarters in Western North Carolina, Peter is touring America, with a team of documentary videographers, and getting recognition by communities small and large. After filming Appleton, Wisconsin's Flag Day celebration in June and Independence Day celebrations in several cities all across America, Peter believes "America is craving stories which focus on the essence of American Spirit. As Americans, we truly appreciate our freedoms and we hold them close to our hearts in this country. We as a nation need to preserve *Life, Liberty and the Pursuit of Happiness*." Smith's commitment to America is self funded and he truly believes, "This is my time to make a difference - to reach out and do all that I can do to help our country - I believe in these United States and that God has truly Blessed America."
