To Whom It May Concern:

I am writing in regards to the Spirit of America DVD. I wanted to let you know how impressed I am with it. This video is absolutely wonderful! I looked everywhere for something to replace an aged VHS cassette of the Star Spangled Banner and the Pledge of Allegiance (both with scrolling words), but could not find one that I was comfortable using in my school. I was about to give up and settle on a low quality production when I stumbled across your Spirit of America DVD. I was instantly impressed.

Being an elementary music teacher, I am able to use this DVD in many different ways, from classroom lessons, our daily morning show, and even at concerts. The wide variety of songs allow my kids to experience so much, all in one place.

We use the Spirit of America DVD every morning at school for the Pledge of Allegiance and the Star Spangled Banner during our morning television show. I love the fact that my kids are able to listen to different versions of the same pieces each day. They do not get bored listening to the same things over and over again and get to experience different textures, timbres, and vocal qualities.

Besides the excellent music selections and opportunities, the pictures are also amazing. They show the beautiful side of America that often gets overlooked. With the combination of the music and pictures, you have created an inspiring project. It truly represents America and helps instill a sense of pride and patriotism in my students and staff. I watch it every morning, and am moved each time.

I highly recommend the Spirit of America DVD to anyone. It is truly a high quality production. Anyone without this DVD in his or her collection is definitely missing out on something special. Thank you for your hard work, dedication, and love for our great country! Excellent job!

Sincerely,

Josh Power
