

## Cuyahoga Valley National Park - Ohio

# Along the "Crooked River"

Though a short distance from the urban areas of Cleveland and Akron, Cuyahoga Valley National Park seems worlds away. The park is a refuge for native plants and wildlife, and provides routes of discovery for visitors. The winding Cuyahoga River gives way to deep forests, rolling hills, and open farmlands. Walk or ride the Towpath Trail to follow the historic route of the Ohio & Erie Canal.

## Did You Know?

November is the time to be on the lookout for bald eagles performing aerial courtship displays. Once eagles have selected each other, they plunge through the air in very high dives, locking their talons and breaking apart just when it looks as though they will crash to the ground.
