

Glacier Bay National Park and Preserve - Alaska

Southeast Alaskan Wilderness

Covering 3.3 million acres of rugged mountains, dynamic glaciers, temperate rainforest, wild coastlines, and deep sheltered fjords, Glacier Bay National Park is a highlight of Alaska's Inside Passage and part of a 25-million acre World Heritage Site-one of the world's largest international protected areas. From summit to sea, Glacier Bay offers limitless opportunities for adventure and inspiration

Did You Know?

The tidal fluctuations in Glacier Bay can be as high as 25 feet! Be sure to keep this in mind when you decide to enjoy an after-lunch nap on the beach during your next paddling adventure.
