

Petrified Forest National Park - Arizona

Petrified Forest is a Science Park!

Best known for globally significant Late Triassic fossils, the park attracts many researchers. Geologists study the multi-hued Chinle Formation. Archeologists research over 13,000 years of history. Biologists explore one of the best remnants of native Arizona grassland. Air quality is an ongoing study in the park. Discover your own passion at Petrified Forest!

Did You Know?

Petrified Forest National Park is the only national park unit to protect a section of Historic Route 66!
