

## Wrangell - St. Elias National Park and preserve - Alaska

# America's Largest National Park

At 13.2 million acres which is bigger than the country of Switzerland, Wrangell-St. Elias stretches from one of the tallest peaks in North America, Mount St. Elias (18,008) to the ocean. Yet within this wild landscape, people have been living off the land for centuries and still do today. The park is a rugged yet inviting place to experience your own adventure.

### Did You Know?

Diverse wildlife, including Dall sheep, grizzly bears, caribou, moose, salmon, and trumpeter swans thrive in this, our nation's largest National Park.
